

INDIA GHG PROGRAM

Promoting profitable, sustainable
and competitive businesses.

WORKSHOP: GREENHOUSE GAS EMISSIONS MANAGEMENT AND MEASUREMENT

The India GHG Program in association with Society of Energy Engineers and Managers (SEEM), invites you to a two-day capacity building workshop on 13-14 September in Kochi, to address the overall management and measurement of greenhouse gas (GHG) emissions across Scope 1 (direct emissions), Scope 2 (electricity indirect emissions), and Scope 3 (other indirect emissions).

The training will consist of interactive sessions on boundary setting, identification and scope of emission sources, information on GHG reporting platforms, mitigation strategies for emission reduction, strengthening and widening of Scope 3 (other indirect emissions) accounting and upcoming trends and tools of climate mitigation. The training faculty will be from partner organizations - WRI India, CII and TERI. The curriculum will be based on the GHG Protocol Corporate Standard. Participants are requested to bring their laptops in order to participate in interactive online exercises.

For further information, contact Subrata Chakrabarty at Subrata.Chakrabarty@wri.org.

About India GHG Program

The India GHG Program is a partnership between WRI India, TERI, and CII and is supported by the Shakti Sustainable Energy Foundation.

India GHG Program Partners

WRI India

WRI India is a research organization with experts and staff who work closely with leaders to turn big ideas into action to sustain a healthy environment—the foundation of economic opportunity and human well-being. We envision an equitable and prosperous planet driven by the wise management of natural resources. We aspire to create a world where the actions of government, business, and communities combine to eliminate poverty and sustain the natural environment for all people. www.wri-india.org

The Energy and Resources Institute (TERI)

The Energy and Resources Institute (TERI) established in 1974 believes in creating an inspiring atmosphere for the development of solutions to challenges in the fields of energy, environment and efficient use of natural resources for a greener today. Environment, economy, and society are at the heart of TERI's mission. Buoyed by more than 40 years of excellence in research and innovation, TERI is now poised for future growth, driven by a global vision and outreach, with a philosophy that assigns primacy to government, industry, and individual actions. www.teriin.org

Confederation of Indian Industry

Confederation of Indian Industry (CII)

CII is a non-government, not-for-profit, industry led and managed organization playing a proactive role in India's development process. Founded over 118 years ago, India's premier business association has over 7100 members including SMEs and MNCs. Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programs – along with partnerships with civil society organizations to carry forward integrated and inclusive development. <http://www.greenbusinesscentre.com/site/ciigbc/aboutus.jsp>

Society of Energy Engineers and Managers (SEEM)

SEEM India is the national professional body of Certified Energy Managers, Auditors and energy professionals in India, a non-government/not-for-profit organization spread over 22 states and engaged in delivering networking and skill development opportunities to its members, by organizing training programs, workshops, etc. www.seemindia.org
