

Training Program on Carbon Footprinting

20 - 21 May 2014, Pune

**INDIA
GHG
PROGRAM**

Promoting profitable, sustainable
and competitive businesses.

INDIA GHG PROGRAM : The India GHG Program aims to promote profitable, sustainable and competitive businesses in India by mainstreaming measurement and management of greenhouse gas emissions.

It's an Industry led voluntary framework to build institutional capabilities for managing Carbon risks and opportunities. The program aims to assist Indian companies to monitor their progress towards voluntary reduction goals in a consistent and credible manner.

For more information visit <http://indiaghgp.org>
